

Sustainability Policy Statement

For over 60 years Tosca has been an industry leader in providing customers with sustainable reusable solutions. As a valuable part of the supply chain, we are committed to providing products that are better for the planet. Tosca's reusable packaging is designed to optimize transportation and storage space, avoid damage to food (which results in food waste), and improve efficiency by reducing cost and labor while requiring only a fraction of the raw material used to manufacture single use alternatives, such as corrugated cardboard boxes, across the whole value chain.

Our commitment does not stop at just innovative and sustainable product design but encompasses operating in an environmental, social and ethically responsible manner across the whole value chain by:

Reducing environmental impacts through:

- Providing fully reusable products (RPCs, bins, bulk containers, pallets etc.) designed to reduce the environmental footprint of packaging to an absolute minimum.
- Reducing waste through minimizing food damage.
- Minimizing shrinkage and preserving food quality.
- Recycling scrap plastic into new containers.
- Minimizing water usage for container sanitation at facilities.
- Reducing greenhouse gas emissions by managing facility energy use, utilizing renewable and/or green energy sources, and minimizing the number of trucks on the road by developing more space efficient pallets and RPCs.

Supporting a safe and empowered society through:

- Leading the way in food safety.
- Protecting our workforce and reducing our occupational health and safety incidents.
- Building a diverse and empowered workforce.
- Being a proud signatory to the UN Global Compact.
- Supporting the local communities in which we live and work.
- Positively promoting relevant United Nations Sustainable Development Goals: namely SDG 2, SDG 4, SDG 5, SDG 6, SDG 7, SDG 8, SDG 9 and SDG 12.

Ensuring ethical operations through:

- Increasing transparency and disclosure of our sustainability performance.
- Requiring adherence by our staff to our Tosca Code of Conduct (COC) and our vendors to the Tosca Supply Chain Code of Conduct.
- Supporting our customers and vendors in their sustainability journeys.

Eric Frank | President and CEO
