

Magnum Classic 1208 Dry Bulk Container

This euro size food grade virgin HDPE "heavy duty" Folding Large Container (FLC) is ideal for dry bulk in a multitude of industries. This foldable container saves space in your warehouse and during return transport, resulting in lower costs and a reduced carbon footprint. The durable structure and two runners ensure strength and stability throughout the supply chain, even when it is open or folded. Designed for safe and easy handling while folding and unfolding, an ergonomic dropdoor on the long side of the container allows for easy picking.

Hygienic

Plastic containers are non-porous and resistant to moisture, insects, fungi, acids, fats, solvents and odor. Our containers are inspected after every turn to make sure they meet our quality standards.

Sustainable

Plastic containers are a sustainable solution because they can be reused for years, get recycled at the end of their service life and are then remanufactured into new containers.

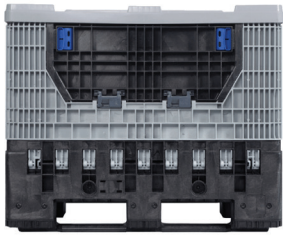

Built for Automation

Because plastic containers are molded, the sizes and weight are always consistent, causing zero disturbances in your automated material handling systems. Unfolding and folding can be done by only one operator.

Features and specifications

Characteristics

Colour	Grey/Black
Lid	Included
Runners	2
Drop door	2
Material	HDPE
Foodgrade	Yes
ISPM-15 proof	Yes
Temperature range	-20°C/+40°C

Dimensions

External	1200 x 800 x 950 mm
Internal	1120 x 720 x 735 mm
Folded	1200 x 800 x 406 mm
Weight	60,9 kg
Volume	620 l

Loading capacity

Max static load	2200 kg
Max dynamic load	1100 kg
Max in rack load	500 kg

Loading quantities

Units per trailer	165 units (198 without lid)
Stack	5 units (6 without lid)
