

# PPP3 1210 Industrial Size Food Grade Pallet

The ideal industrial size pallet for semi-hygienic applications, our PPP3 is a food grade virgin PP pallet and is best used in industries that do not require heavy-duty pallets with high racking capabilities. This easy-to-handle pallet features three runners and an upper deck with a smooth surface. Anti-slip grommets on the upper deck prevent slippage of product on top of the pallet while also maintaining grip on forklift forks in the midst of sudden movements.

## Hygienic

Plastic pallets are non-porous and resistant to moisture, insects, fungi, acids, fats, solvents and odor. Our pallets are inspected after every turn to make sure they meet our quality standards.

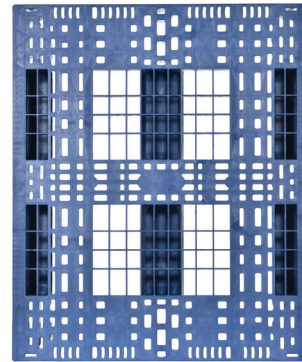

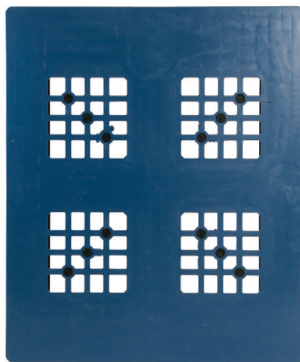

## Sustainable

Ultra-durable pallets can be reused for years and outlast wood alternatives. At the end of their lifecycle, they get recycled and remanufactured into new pallets.

## Built for Automation

Because plastic pallets are molded, the sizes and weight are always consistent, causing zero disturbances in your automated material handling systems.

# Features and specifications

---

## Characteristics

Colour	Blue
Runners	3
Rims	No
Anti-slip	Yes
Metal re-inforced	No
Material	PP
Foodgrade	Yes
ISPM-15 proof	Yes
Temperature range	-20°C/+50°C

## Dimensions

External	1200 x 1000 x 160 mm
Weight	20 kg

## Loading capacity

Max static load	5.000 kg
Max dynamic load	2.500 kg
Max in rack load	1.250 kg

## Loading quantities

Units per trailer	390 units
Stack	15 units
