

Top Frame

3 sizes Layer Solutions

Our food grade PVC sustainable top frame layer solutions reduce packaging waste significantly by eliminating wood and carton disposal. With our top frame you are able to secure and protect sensitive product from damage. These top frames, available in 3 sizes and are used in the beverage can industry.

Hygienic

Plastic top frames are non-porous and resistant to moisture, insects, fungi, acids, fats, solvents and odor. Our layer pads are inspected after every turn to make sure they meet our quality standards.

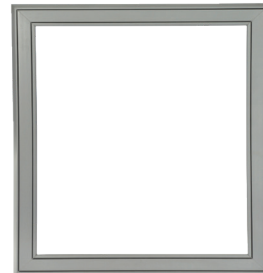

Sustainable

Plastic top frames are a sustainable solution because they can be reused for years, are recycled at the end of their service life and are then remanufactured into top frames.

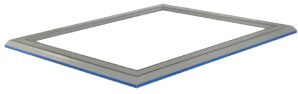

Built for Automation

The top frames are made of light weight material and the sizes and weight are always consistent, causing zero disturbances in your automated material handling systems.

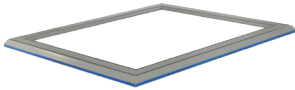

Features and specifications

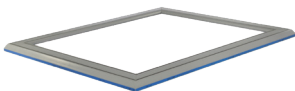

1211

Height	40 mm
Length	1250 mm
Width	1180 mm
Weight	4,2 kg
Stacked height	20 units
Units per trailer	2.000
Material	PVC
Colour	Light Grey/Blue
Foodgrade	Yes
ISPM-15 proof	Yes
Temp. range	-20°C/+55°C

1311

Height	40 mm
Length	1300 mm
Width	1120 mm
Weight	4,6 kg
Stacked height	20 units
Units per trailer	2.000
Material	PVC
Colour	Light Grey/Blue
Foodgrade	Yes
ISPM-15 proof	Yes
Temp. range	-20°C/+55°C
