

Product Portfolio

Reusable packaging and pooling solutions for a more efficient and sustainable supply chain.

Tosca is a global leader in reusable packaging and pooling solutions.

We enable a future where sustainable solutions for packaging and transport are essential, and disposable is a thing of the past. We have over 100 years of experience optimizing supply chains end-to-end—in the “first mile” from field and factory, to the “last mile” before retail.

Our customers span industries. From perishables—like eggs, protein, produce, seafood and cheese—to commodities, ingredients, packaging, pharmaceuticals, textiles and more. Our product systems are designed to be individually powerful, and together unbeatable.

Welcome to how the supply chain was meant to run.

Welcome to the reusable revolution.

RPCs

Sturdy, store-ready handhelds that protect quality and reduce cost.

Pallets

Durable, stackable and rackable plastic pallet options fit for raw material transport or delivery into retail.

Dollies

Easy-to-maneuver dollies with a variety of wheels, handles and sizes. Display-ready—just wheel into place.

Why reusables?

Strong, long-lasting plastic containers, dollies, pallets and bins protect your products, protect the planet, and reduce your costs.

Here's what you get:

- Higher quality products
- Reduced damage/shrink
- A zero waste, sustainable solution
- Washable, food-grade assets
- Less wasted time stocking shelves and cleaning messes
- Optimized space in trucks, DCs and backrooms

Bulk containers

Plastic dry and liquid bulk containers that are foldable, food grade, and ready for your upstream raw ingredients.

Why pooling?

Pool with Tosca and join the circular economy—a collection of thousands of Tosca customers leveraging long-lasting reusable assets to reduce waste, cost, shrink, and labor at every turn in their supply chain.

Here's how we can work:

- Build and manage your new pool
- Manage and service your existing pool
- Rent reusable assets from us

No matter which option fits, you get a high performance supply chain—without the headache and major investment required to purchase, manage and maintain your reusables.

Displays

Easy-assembly reusable displays enhance shopper experience and save cost.

Custom

We can purpose-build to support evolving demands of your supply chain with in-house manufacturing.

Tosca Asset IQ

Supply Chain IoT for Reusable Packaging

Experience more visibility, savings and control in your supply chain with IoT devices connected to high-quality reusable packaging and pallets.

Tosca Asset IQ combines years of experience in the reusable packaging space into one cohesive service designed to offer partners a better way to track and assess supply chain performance through sophisticated connective devices.

Custom Solutions

Packaging Research and Development

Do you need a deeper container? A pallet of particular dimension to maximize cube utilization in your new trucks? A pooling facility closer to your new distribution center?

Tosca operates with a solutions mindset - working with our customers to ensure that they get the solutions they need to support a more efficient and sustainable supply chain.

Wash and Service

The Industry's Highest Standard of Food Safety

Tosca is the industry's first to achieve ISO 22000 certification - the industry's most stringent food safety management standard.

The Tosca wash cycle is designed to maximize food safety by minimizing the risk of biological, chemical or physical hazards. Intensely precise, it includes carefully monitored chemical usage, water pressure and temperatures.
